It Brings Results!

The most skeptical can be easily convinced of the merits of advertising if the following story is given credence.

Pittsburg, June 17.—Classified advertising solicitors on Pittsburg papers patted themselves on the back the other day when Jos. Strum, whom lawyers were looking for all over the world to give him a fortune, walked into Mayor Magee's office. "I read about it in the papers," said Strum, showing a clipping. Twenty years ago, in Bavaria, Strum saved the life of an aunt of his. The aunt died a few weeks ago leaving \$55,000 in money, a great big farm and 3,000 sheep. She bequeathed it all to Strum. Lawyers started hunting him. It was thought he had lived in Pittsburg at one time. The paid ad. did the rest.

Have You a Bull Dog?

If a man has a \$50 bull dog he will look after it carefully and not let it run around at night over town. But if he has a boy it is different. He is turned loose at a tender age to roam at will and the people wonder where the great army of tramps, bums, loafers, deadbeats, gamblers and drunkards come from each decade. They are germinated from our homes and flung broadcast on the streets. It may be that your boy is making a growth in that direction. At all events the boy ought to be given an equal showing with the bull pup.—Wapanucka Press.

A MISCARRIAGE OF JUSTICE SAYS THE STONEWALL NEWS

As had been freely predicted for several days, the jury in the Mack Lee murder case Wednesday morning returned a verdict of not guilty. The prediction that such would be the verdict was based solely on the fact that Lee possessed money and that his money, regardless of the evidence, would save his neck from the gallows. That Mack Lee was guilty there can be no doubt; but as to whether or not it was money that prompted the jury in their verdict opinions differ. But one thing is sure, and that is, the verdict verified the opinion so often and so freely expressed. It is such juries and such miscarriages of justice that cause the criminal, especially if he happens to possess a few dollars, to have less fear and less regard for the law. It is such verdicts that cause the law-abiding, God-fearing man to feel unsafe and insecure around his hearthstone, in his shop or anywhere his business might call him. It is such verdicts as this that cause the law to be executed at the hands of a mob—often composed of the best men in a community. But there is no telling the power of money in the hands of unscrupulous court manipulators whose chief aim is to thwart the ends of justice.—Stonewall News.

ENDEAVORS END MEET.

Muskogee Gets the Next Meeting and Elects the President.

El Reno, Okla., June 17.—The annual convention of the State Christian Endeavor society was closed here tonight with an address at the El Reno theater by the Rev. Dr. Francis Clarke, of Boston, founder of the endeavor society. Muskogee was chosen this afternoon as the place for the next meeting of the state convention, and officers were elected as follows: President, the Rev. W. S. Simmons, of Elbid; vice president, W. F. Richards, of Stillwater; recording secretary, A. Fale of Enid; treasurer, E. W. Conley, of Frederick; Junior superintendent, Miss Fay Causey, of Enid; press superintendent, A. N. Crooke, of Ardmore; introduction superintendent, Mrs. Gertrude Motter, of Cherokee.

About two hundred and fifty delegates attended the convention, which was said to be the most successful in the history of the organization. The sessions have been fraught with intense interest in the work, and the best talent in the organization has

been brought forward in the discussions. Evangelization received a large share of attention and the missionary feature was prominent throughout.

Can You Qualify?

Have you drank at the Sunny Brook? According to a fictitious exchange there is now open a number of good positions in the state department. The requirements are revealed in the advertisement below.

Wanted—one hundred well experienced saloon keepers for the state dispensaries. Must be a good judge of whiskey and possess a thorough knowledge of the medical qualities of Sunny Brook. For further particulars apply to State liquor department, Guthrie, Okla.

NO MONEY FOR SMOKED MEAT REBELLION

Guthrie, Okla., June 18.—The state of Oklahoma hasn't money to pay the cost of the Crazy Snake war of two months ago, and unless the horse thief reward fund is available for such purposes the expenses of the famous "Smoked Meat Indian War" must go unpaid until the next legislature.

Adjutant General Canton estimates the cost of suppressing the Indian uprising at from \$5,000 to \$7,000. The state has appropriated only \$3,000 for calling out troops and this is not available until July 1. There will remain a deficiency of several thousand dollars. The governor, attorney general and General Canton held a conference last Sunday afternoon and endeavored to find some other fund out of which the remaining cost could be paid. The governor has an allowance of \$5,000 for paying \$50 rewards for captured horse thieves, which was made him by the last legislature, and since the Indian war so-called arose over the theft of a cow, it is hoped that the horse thief appropriation can be construed to cover the military expenses.

The items of expenditure cover three special trains for conveying troops to the scene of hostilities, pay of 200 militiamen for ten days service, and thirty men for twenty-five days service, pay of officers, cost of supplies and other transportation expenses.

The official report of Colonel Hoffman, commander-in-chief of the forces which went to the Hickory grounds after the Snakes, shows that not a shot was fired by militiamen in restoring peace.

The first crazy Snake uprising, the spring of 1908, was suppressed at a cost of \$30. The only soldier that went to the front then was Adjutant General Canton, a former United States marshal of undoubted courage. He went to the Snake camp in full uniform, and alone. There he found 600 Indians armed and excited. He told them that if they didn't lay down their arms and disperse he would bring in a thousand men

and wipe them off the face of the earth. So impressed were the Indians at his courage in coming alone into their midst, and by his firm threat to annihilate them unless they laid down their arms, that they stacked their rifles in a pile before him, and Crazy Snake bound himself under oath to cease his warlike work. Two days later not an Indian was to be found in the neighborhood. They had all gone home to their cotton patches and corn fields.

When young men start in business their thoughts are all prospective. They look forward to the time when they will attain success. They work hard. They put enthusiasm and long hours into their business. As years pass they attain success and cash in this world's goods, they indulge in high living. They have country places. They take things easy. They sit back in their chairs and imagine their business will go on forever because they are so well established.

The hard worker is entitled to slacken up a little as success comes to him, but the moment his energies commence to wane, he should see to it that he gets the right sort of young material in the institution to keep up the enthusiasm and hard work which he himself has had. In the very nature of things it is impossible for a man to keep up his youthful pace in his mature age, for, as we have frequently observed, you can't go fast far.

One of the principal elements in Marshall Field's success was that he got enthusiastic, hard workers around him. The moment he saw signs of laxity in any of these individuals, he let them out and got new material. Laxity means loss of power, and with loss of power the machine does not do as good work. Laxity in business is a waste.

A LIST OF THE INVINCIBLES

The advertising in a local newspaper invariably reflects the business status of the town. June and July are supposed to be the dulllest months of the year. The week just ending is supposed to be the dulllest week of the dulllest month, but on closing our forms today we can't refrain from calling your attention to the display advertisers who are represented in this issue. We are proud of them and submit their names as an index to their advertisements which appear elsewhere. If this standard could be maintained a better daily paper would be the result:

JUDGE H. COLBERT FILES OBJECTION

CHICKASAW FULL BLOOD WOULD
NOT HAVE INDIAN SCHOOLS RE-
MOVED FROM PRESENT LO-
CATIONS.

Ada Would Like Schools, But Desires
Consent and Co-operation of Chick-
asaws as Well as Government.

The citizens of Ada have lately re-
viewed with interest the suggestion
that by proper action there might be
secured the location in Ada of the
Collins Institute, a Chickasaw Tribal
school for girls located about 15
miles south in this county and in
addition, in conjunction, one or two
other tribal schools located within
the Chickasaw nation.

Since Ada is the more accessible
to the greater number of Chicka-
saws by railroad than any other
Chickasaw city and concluding there
was likelihood of long continuance
of the tribal schools, there were some
friends of both Ada and the Chick-
asaws who thought that it would
conserve the better interests of the
Chickasaws to concentrate their tri-
bal schools in this city, the only
Chickasaw city with a state normal
school.

Therefore the citizens of Ada met
together and discussed the propo-
sition. A committee was appointed
to consult with the leading Chicka-
saws and government officials that
their disposition toward the Ada pro-
ject might be ascertained. It is said

that many of the leading Chickasaws
favor the removal of the schools to
Ada, but it now appears that at least
one prominent Chickasaw is opposed
to such change and there may be
many more. The news is glad to
publish the Chickasaw's views. Here-
under there is given the public the
view of Judge Humphrey Colbert,
advanced Chickasaw full blood.

From Bro. Colbert.
Editor Ada News.

I see in your paper issued June 3rd
1909, school proposition considered at
the 25,000 Club rooms an undertaking
to effect the removal of Collins Insti-
tute to Ada. Prof. Kennedy seems to
be the one of the main leaders for
this to be done. This Collins Insti-
tute is a Chickasaw Indian boarding
school supported by funds belonging
to the Chickasaw people, and Prof.
Kennedy had charge of this school
for the last two years, employed by
the government. He has been suc-
cessful in the management and in
employing good teachers, etc. Every-
body likes Mr. Kennedy well as a
school man. I was in hopes he would
be retained at Collins Institute for
the next term. I as a farmer and a
citizen of this new state of Oklaho-
ma and always for anything that will
benefit the people. I consulted my-
self if there is any good reason why
Collins Institute should be moved to
Ada and after investigation and hear-
ing arguments pro and con it is in
my opinion that to move it would be
a great blunder and a sad mistake.

In the first place it is the property
of the Chickasaw people and estab-
lished and maintained by the Chick-
asaw funds and not by the state of
Oklahoma; in the second place the
school ground and buildings cost the
nation \$8000 and to add the 160 acres
of land that the Atoka agreement set
aside for Collins Institute would add
another \$4000. These two amounts
put together would make Collins In-
stitute cost the nation \$12,000; in the
third place this school is situated in
a good healthy location, two good
strong wells of water is provided, a
fine clear stream of water runs with-
in one-half miles of the school, plenty
of wood for fuel on the school
ground or grounds belonging to the
school about 50 acres of land in a
good state of cultivation belonging
to the school. Owing to the many ad-
vantages that Collins has for a
school it is useless to move this
school to Ada and move it is against
the wish of the patrons of the school
and in general the Chickasaw people,
the Indians will not send their chil-
dren to Ada to school and to move
the school to Ada will kill the In-
dian's schools from the fact many of
the Indians will bring suit against

the government of the United States
for their pro rata share of the in-
vested funds now in the hands of the
government and if this money is
drawn out there will be no more mon-
ey to carry on Indian schools, conse-
quently the Indian children will have
to mix up with the white children
in school and the trouble would be
in the end the white children will
overrule the Indian children and the
Indian children will quit school and
grow up in ignorance instead of pro-
gressing in education and civilization
they would retrograde the white
schools mixed would be a stumbling
block to the Indians. H. COLBERT.

WEALTH IN OKLAHOMA.

Professor Gould, the director of
the Geological Survey has never been
able to get up much enthusiasm over
the gold and silver prospects of Okla-
homa, but he sees great possibili-
ties in clay; just ordinary, every-day
clay. He says that if one-tenth the
million dollars that have been spent
in digging for gold in the Wichita and
Arbuckle mountains had been spent
in establishing clay products plants
that Oklahoma would have been mil-
lions of dollars better off today.

Did you ever think that there is
a constant stream of good Oklaho-
ma money going out of the state to
buy clay products? All of our tile,
pottery, terra cotta and fire proofing
comes from Kansas, Missouri or
some other state. Even three-fourths
of our brick comes from Kansas. Our
money goes to pay taxes swell bank
deposits and pay grocery bills in
these state and Oklahoma is just so
much poorer.

There might be some excuse for
this condition of affairs if Oklaho-
ma had no clay, but Oklahoma has
plenty of clay, and good clay at that.
Besides Oklahoma has all sorts of
fuel to manufacture the clay and a
constantly increasing market.

The chemist of the Geological Sur-
vey is now in Pittsburg, Pa., at the
government testing laboratories mak-
ing tests of Oklahoma clays. When
these tests are completed and the
suits distributed to the various com-
mercial clubs furnishing the clay, the
people of Oklahoma will know just
what their clay is good for. When
this is done it should be an easy mat-
ter to locate clay products plants in
the state and thus keep our money at
home.—Oklahoman.

TO EMPLOY UNION MEN.

In Construction of State Buildings
Cards Will Be Recognized So Far
as Possible.

Guthrie, Okla., June 18.—Union
labor will be employed as far as
possible in the construction of state
buildings hereafter constructed in
Oklahoma, according to a rule adopt-
ed today by the state board of pub-
lic affairs. All of the contracts which
are let by the board will contain a
stipulation to that effect and no con-
tractor will get any of the state
work who is not willing to accept
such a stipulation.

The board has also adopted a rule
in regard to the purchase of supplies
to the effect that all purchases shall
be made within the state, where the
same prices can be obtained as from
outside firms. This rule does not suit
some of the state officers, however.
The state treasurer's office sent in
to the board a requisition for litho-
graphed checks, hitherto purchased
from a Topeka house. The board sent
the order to an Oklahoma City firm,
which made the same price on the
work, but receiving a letter of in-
dignant protest from State Treasurer
Menefee, directing the cancellation of
the order if the work was not done
by the same firm as before.

"We may not know what we want",
said the treasurer's letter, "but
we will not allow your board to dic-
tate what we have."

State Normal for the Deaf.

Sulphur, Ok., June 16.—Col. Roy
Hoffman and R. J. Allen of the state
purchasing board have been here for
two days, going over the needs of
the state school for the deaf. A bi-
ennial maintenance appropriation of
\$80,000 for the institution was made
by the legislature, and this fund is
to be expended by the purchasing
board. This is commencement week
at the school the annual term of
which closes June 24. The average
attendance for the year just closing
has been 176 pupils. It is stated on
good authority that in the employ-
ment of matrons, hall girls, etc., for
the coming year preference will be
given to persons of good hearing,
the reasons given for such prefer-
ence being that in cases of sickness
or emergency persons of good hear-
ing would be much more apt to dis-
cern the needs of the small chil-
dren.

New York, N. Y., June 17.—A dis-
cussion of the political problems
confronting the country through the
development of power by larger cor-
porations is made by former Presi-
dent Roosevelt in this week's Out-
look.

"If business is hurt by the stern
exposure of crookedness as a result
of the efforts to punish crooked
men," writes the ex-president, "then
business must be hurt until it so
adjusts itself that it will be im-
possible to prosecute wrong doing
without stampeding the business com-
munity to the defense of the wrong
doers and angry assaults upon those
who have exposed them."

MEET THE GOVERNOR.

Executive Committee of School Land Lessees Consults With Haskell Regarding Appraisalment of Last Year.

Guthrie, Okla., June 17.—The ex-ecutive committee of the school land lessees' organization was here to-day in consultation with Governor Haskell and the members of the school land board in regard to the method to be adopted for correcting and revising the appraisalment of last year. The board has granted an ex-tension of leases for the present year on the basis of the old appraisalment, but has taken no action in regard to correcting the new one.

The lessees still favor the plan of sending out refers to the various counties to correct whatever injustice may have been done by the apprais-ers. The plan which now meets with most favor is to have two of these referees for each county, one a democ-rat and one a republican, so as to get the matter out of the field of politics as far as possible.

In his speech before the lessees here at the time of their annual con-vention, Governor Haskell expressed a desire to give them a square deal on the matter of the appraisalment and promised to see that justice was done them, so that it is expected that he will acquiesce in the plan which may be adopted by the lessees.

NEWSPAPER CHANGE LEGAL.

Attorney General Rules Publication's Status Not Affected by Change in Location.

Guthrie, Okla., June 18.—An opin-ion by Attorney General West today indicates that the New State Tribune Gov. Haskell's newspaper published at Muskogee, may be moved to Okla-homa City and not lose its legal publication standing, inasmuch as it is now circulated in both counties.

The opinion was given in answer to a letter from Gov. Haskell. When asked if the New State Tribune would be moved from Muskogee to Oklaho-ma City, the Governor entered a den-ial, saying that he sought the in-formation for another, and merely used his own newspaper for that pur-pose.

MOTION TO QUASH MAY COME LATER

COUNSEL FOR HASKELL MAY DEFER ACTION UNTIL OCTOBER.

Gregg Will Plead Guilty So It Is Reported.

McAlester, Okla., June 18.—United States Attorney Gregg arrived here today from Muskogee, and interest in the Muskogee town lot cases was revived. He said he was ready to take the matter up at once to grant a speedy trial, or he would give reasonable time for the filing of any motions.

Judge C. B. Stuart, leading counsel for Governor Haskell, said that probably no motions would be filed in the case until August 15 or September 1, and as Judge Marshall will not return to this state by the first of September, the motions may not be argued until the October term at Ardmore.

Mr. Gregg and Judge Stuart held a conference tonight which may result in a change in this program.

In the federal court today William Bolerus pleaded guilty to violating the postal laws. Sentence was deferred.

A jury found Alfred Whaley guilty of violating the revenue laws and recommended mercy. He was sentenced to thirty days in jail.

Alba Leetka, an Indian from Wewatka, pleaded guilty to the larceny of a letter containing a money order and was sentenced to one year in the Leavenworth prison.

TREASURER ARRESTED.

District Judge Holds Court Script Is Payable on Order.

Nowata, Okla., June 18.—Following a clash between District Judge T. L. Brown and County Treasurer J. W. Forsythe yesterday over the payment of an order upon the treasurer, issued by the court, in payment of the salary of a stenographer, Judge Brown caused the arrest of Forsythe for contempt of court. Forsythe paid the order from his own funds, holding that to pay it out of the county funds would be in violation of the law.

Judge Brown declared there was a difference between the regular county warrants and that issued out of the district court as in this case.

BEAUTIFUL WEDDING.

Opera House Only Adequate to Accommodate Friends and Relatives.

The most beautiful wedding of the mid-summer season was celebrated in Ada Friday evening when Miss Jennie June was united in marriage to Mr. Tom Thumb.

Though the participants were the tiniest we have seen, probably there has never occurred a wedding in our city witnessed by such a vast concourse of interested people. The contracting parties were two of our most popular young people and the wedding so elaborate, with such a large number of attendants that the Air-dome was the only house adequate to accommodate the visitors.

Many friends and relatives of the bride and groom were escorted by the ushers to the platform which had been beautifully decorated for the occasion. It was heart rending to witness the grief of the poor old mother. Just before the bridal party entered, Madam Cresco sang, "I Love You Truly."

To the sweet strains of Mendelssohn, entered the beautiful little flower bearers, the ring bearers, the cushion bearer, ushers, groomsmen, bridesmaids and maid of honor, the handsome groom with his best man and the pretty bride on the arm of her father. Under the floral arch the ceremony was impressively performed by the preacher.

Immediately after congratulations and commiserations, a reception was tendered the party by the bride's mother and father, when delicious refreshments were served.

The old lion of the tribe of Judah has broken the stillness of years and his words should be heeded by the renegade democrats in congress. It has been several years since ex-senator Rogers Q. Mills of Texas, has said anything political, but now he remarks among other things that "I believe that men who believe as we do would rather see the party die than to see it further prostitute to serve the uses of the base men who now seem to control it." Many others think about the same way. Has the time come when the people must arise in their might and smite the hydra headed monster of corporated combines with the sword. Shall it come to that? Will the masses not be aroused from their lethargy?—Enid Democrat.

OUR GUTHRIE CORRESPONDENT

A requisition by the governor of Kentucky was honored by Governor Haskell today. Ike Cash, indicted in the circuit court of Muhlenberg county Kentucky for the wilful murder of Earl Smith is charged in the requisition. It is said that Cash is now in Le Flore county, Oklahoma.

Guthrie, June 18.—Some more evidence that capital has not lost faith in Oklahoma on account of the democratic laws, was filed with the office of the secretary of state today. The charters were as follows: Hoffman-Speed Printing Co., Muskogee, capital \$5,000. Mendon Telephone Co., Mendon, capital \$3,000. The Big Five Oil and Gas Co., Tulsa, capital \$10,000. Raleigh Mining and Investment Co., of Lawton, capital \$100,000. Western Biscuit Co., of Wichita, Kansas, capital \$150,000. The Oklahoma Bankers Trust Co., Oklahoma City, capital \$500,000.

This is the usual daily tale of prosperity in Oklahoma. Investments reaching from \$3,000 to \$500,000 hardly justifies the prediction made by the republican state platform that business under a democratic administration would become paralyzed.

The following paroles were filed with the Secretary of State today after having been issued by Governor Haskell. The paroles make the usual provision that the prisoners abstain from the use of liquor and report every thirty days to the Governor. Fred Mushler, convicted in the District court of Blaine county in April 1908, of larceny; Bud Casteel, convicted in the district court of Noble county in April, 1908, for burglary; Lee Raymond, convicted in the district court of Rogers county in May, 1908, of burglary; Thomas Lindsay, convicted in the district court of Carter county in November, 1908, for forgery; Belle Phillips, convicted in the district court of Kiowa county, February 1907, for manslaughter.

F. B. Lilly of Guthrie and J. C. Burton of Stroud, were appointed by Governor Haskell as delegates to the National Pharmacy convention at Los Angeles, Calif., August 16th to 21st.

An erroneous impression prevails in some parts of the state as to the location of the state public health department. This is the largest de-

partment of the state government not located in Guthrie. Health Commissioner, Dr. J. C. Mahr, has his department located at Shawnee. It is there that all matters concerning public health of the state are transacted. The state laboratory work under the direction of the state commissioner of health is located at Norman, being a part of the State University. Recently a number of samples of food stuffs and drugs have been sent to both the laboratory and to Guthrie by mistake.

All correspondence pertaining to public health should be addressed to Dr. J. C. Mahr, State Commissioner of Health, Shawnee, Okla.

Yesterday the State Board of Affairs approved the first estimate on the normal school building now in the course of construction at Weatherford, Oklahoma. The State Board of Affairs and the Board of Normal regents appears to have gotten together on this proposition.

Rule No. 8, of the State Board of Public Affairs will receive the hearty commendation of all who are for the upbuilding of home industries. The rule is to the effect that no supplies will be purchased from outside of the State where the same can be purchased at home without loss to the State. It also provides that all labor shall be performed by Oklahoma laborers where possible. Yesterday the board let the contract for the printing of five hundred volumes each of the first nine volumes of the Oklahoma Supreme Court Reports. The Muskogee Times-Democrat was the lowest and best bidder and took the job for \$4,339.50. An arrangement was made with the type-writer companies, excepting the Underwood Company, to furnish the state institutions with type-writers at list price less 10 and 10 off. This is a saving on each type-writer of nine dollars below any price yet granted to the state by the companies. The schools of the state have been enjoying a price of seventy dollars, and the new contract reduces the price to fifty dollars. This arrangement will save the state annually from fifteen hundred to two thousand dollars.

Builds Two Story Sanitary Ware House in Addition to Four Gigantic Buildings.

The Texas Department Store, that institution with a purpose, managed by J. B. Wall, a weird wizard of twentieth century commercial tactics, is erecting at the rear of its Main street establishment a two story, rat and dust proof ware house where an immense reserve stock will be carried and where weighing and heavy weight transactions will be in charge of a competent man selected for that purpose. The Texas Department Store is a revelation to natives of this community and is attracting attention from all quarters.

PROGRESSIVE CITIZENS

Been Out Raising Money to Buy Lot for New Industry.

Progressive citizens, Messrs. Were 'All There.

It was a sight that delighted the eye at the opera house last night, those sweet, precocious Ada children. There are none like them anywhere and the receipts, a part of which were in benefit to the good Baptist ladies missionary aid, were all that could have been expected, for the house was filled, filled almost with the fond relatives of the little actors on the stage, relatives who had paid many dollars for the little stage dresses required to afford the proper stage effect, filled with relatives in the main who had then paid substantial admission prices to see the little darling girls and sturdy "Tom Thumb" boys do their little stunts on the stage and to incidentally of course assist the worthy ladies, who were going to receive the receipts, that is, part of the receipts, for the most of the receipts, it is said, went to the man and woman engaged in the labor of love and money, who got it all up.

It Brings Results!

The most skeptical can be easily convinced of the means of advertising if the following story is given credence.

Pittsburg, June 17.—Classified advertising solicitors on Pittsburg papers patted the ussels on the back the other day when Jos. Strum whom lawyers were looking for all over the world to give him a fortune walked into Mayor Wagner's office. "I read about it in the papers," said Strum, showing a clipping. "Twenty years ago in Bavaria Strum saved the life of an aunt of his. The aunt died a few weeks ago leaving \$50,000 in money, a great big farm and 3,000 sheep. She bequeathed it all to Strum. Lawyers started hunting him. It was thought he had lived in Pittsburg at one time. The paid ad did the rest."

Have You a Bull Dog?

If a man has a \$70 bull dog he will look after it carefully and not let it run around at night over town. But if he has a boy it is different. He is turned loose at a tender age to roam at will and the people wonder where the great army of tramps, bums, loafers, deadbeats, gamblers and drunkards come from each decade. They are germinated from our homes and hung broadcast on the streets. It may be that your boy is making a growth in that direction. At all events the boy ought to be given an equal showing with the bull pup.—Wapamuck Press

A MISCARRIAGE OF JUSTICE SAYS THE STONEWALL NEWS

As had been freely predicted for several days, the jury in the Mack Lee murder case Wednesday morning returned a verdict of not guilty. The prediction that such would be the verdict was based solely on the fact that Lee possessed money and that his money regardless of the evidence would save his neck from the gallows. That Mack Lee was guilty there can be no doubt, but as to whether or not it was money that prompted the jury in their verdict opinion differs. But one thing is sure and that is the verdict verified the opinion so often and so freely expressed. It is such verdicts and such miscarriages of justice that cause the criminal especially if he happens to possess a few dollars to have less fear and less regard for the law. It is such verdicts that cause the law abiding God fearing man to feel unsafe and insecure around his hearthstone in his shop or anywhere his business might call him. It is such verdicts as this that cause the law to be evaded if the hands of a mob—often composed of the best men in a community. But there is no telling the power of money in the hands of unscrupulous and manipulators whose chief aim is to thwart the ends of justice.—Stonewall News

EMPLOYERS END MEET.

Muskogee Sets the Next Meeting and Elects the President.

At Reno Okla. June 17.—The annual convention of the State Christian Endeavor society was closed here tonight with an address at the El Reno theater by the Rev. Dr. Francis, Clarke of Boston, founder of the endeavor society. Muskogee was chosen this afternoon as the place for the next meeting of the state convention and officers were elected as follows:
 President the Rev. W. S. Simmons of Edw. vice president, W. F. Richards of Stillwater; recording secretary, A. Wade of Edw. treasurer, E. W. Conley of Frederick. Junior superintendent Miss Fay Causey of Edw. press superintendent A. N. Crooke of Ardmore. introduction superintendent Miss Gertrude Motter of Cherokee.

About two hundred and fifty delegates attended the convention which was said to be the most successful in the history of the organization. The sessions have been fraught with intense interest in the work and the best talent in the organization has

been brought forward in the discussions. Evangelization received a large share of attention and the missionary feature was prominent throughout.

NO MONEY FOR SMOKED MEAT REBELLION

Guthrie Okla. June 18.—The state of Oklahoma hasn't money to pay the cost of the Crazy Snake war of two months ago and unless the horse thief reward fund is available for such purposes the expenses of the famous Smoked Meat Indian War must go unpaid until the next legislature.

Adjutant General Canton estimates the cost of suppressing the Indian uprising at from \$5,000 to \$7,000. The state has appropriated only \$3,000 for calling out troops and this is not available until July 1. There will remain a deficiency of several thousand dollars. The governor atorney general and General Canton held a conference last Sunday afternoon and endeavored to find some other fund out of which the remaining cost could be paid. The governor has an allowance of \$7,000 for paying \$10 rewards for captured horse thieves which was made him by the last legislature and since the Indian war so called arose over the theft of a cow, it is hoped that the horse thief appropriation can be construed to cover the military expenses.

The items of expenditure cover three special trains for conveying troops to the scene of hostilities, pay of 200 militiamen for ten days service and thirty men for twenty five days service, pay of officers cost of supplies and other transportation expenses.

The official report of Colonel Hoff, military commander in chief of the forces which went to the Hickory grounds after the Snakes, shows that not a shot was fired by militiamen in restoring peace.

The first crazy Snake uprising the spring of 1908 was suppressed at a cost of \$30. The only soldier that went to the front then was Adjutant General Canton, a former United States marshal of undoubted courage. He went to the Snake camp in full uniform, and alone. There he found 600 Indians armed and excited. He told them that if they didn't lay down their arms and disperse he would bring in a thousand men

and wipe them off the face of the earth. So impressed were the Indians at his courage in coming alone into their midst and by his firm threat to annihilate them unless they laid down their arms that they stacked their rifles in a pile before him and Crazy Snake bound himself under oath to cease his warlike work. Two days later not an Indian was to be found in the neighborhood. They had all gone home to their cotton patches and corn fields.

 * When young men start in business their thoughts are all prospective. They look forward to the time when they will attain success. They work hard. They put enthusiasm and long hours into their business. As years pass they attain success and cash in this world's goods. They indulge in high living. They have country places. They take things easy. They sit back in their chairs and imagine their business will go on forever because they are so well established.
 * The hard worker is entitled to slacken up a little as success comes to him. In the mean while his energies commence to wane. He should see to it that he gets the right sort of young material in the institution to keep up the enthusiasm and hard work which he himself has had. In the very nature of things it is impossible for a man to keep up his youthful pace in his mature age for as we have frequently observed you can't go fast far.

 * One of the principal elements in Marshall Field's success was that he got enthusiastic hard workers around him. The moment he saw signs of laxity in any of these individuals he let them out and got new material. Laxity means loss of power, and with loss of power the machine does not do as good work. Laxity in business is a waste.

A LIST OF THE INVINCIBLES

The advertising in a local newspaper invariably reflects the business status of the town. June and July are supposed to be the dullest months of the year. The week just ending is supposed to be the dullest week of the dullest month but on closing our forms today we can't refrain from calling your attention to the display advertisers who are represented in this issue. We are proud of them and submit their names as an index to their advertisements which appear elsewhere. If this standard could be maintained a better daily paper would be the result.

MEN OR YOUNG MEN Who Put Their confidence in us in this matter of clothes are entitled to know the truth about what they buy here; and we're glad to have them know it, there's nothing here that we're afraid to tell the truth about,

Hart Schaffner & Marx clothes are all-wool, and all-wool is the only real full value in clothes. We have some clothes that are not all-wool, we'll tell you so if you select any of them. We don't advise you to buy cotton mixed goods, they're mostly disappointing, and that's bad for us as well as you. We have them here to sell to men or the young men who are not yet wise enough to insist on all-wool.

We'll try to persuade you to buy Hart Schaffner & Marx all-wool clothes that were

18.50 to 25.00

but just now we are having cut prices in all our high price suits. They will cost you now much less than before.

We Carry All Kinds of Underwear.

Sleeves long or short. Drawers in knee lengths and full lengths 25c and 50c.

Union Suits	\$1 and \$1.50	Night Shirts	65c to \$1
Pajamas	\$1.25 to \$2.00	Silk Ties	25c to 50c
		Lisle Hose	25c and 50c

If your smaller boys need good clothes you will find here what is best—\$3.50 to \$10.00

Straw Hats and Panamas at Reduced Prices

SHOES	HATS
W. L. Douglas and	John B. Stetson
Burt & Packard's \$3.50 and \$4.00	and the Gimbel \$3.00 Hat

JUDGE H. COLBERT
FILES OBJECTION

CHICKASAW FULL BLOOD WOULD
NOT HAVE INDIAN SCHOOLS RE-
MOVED FROM PRESENT LO-
CATIONS.

Ada Would Like Schools, But Desires
Consent and Co-operation of Chick-
asaws as Well as Government.

The citizens of Ada have lately re-
viewed with interest the suggestion
that by proper action there might be
secured the location in Ada of the
Collins Institute, a Chickasaw Tribal
school for girls located about 15
miles south in this county and in
addition, in conjunction, one or two
other tribal schools located within
the Chickasaw nation.

Since Ada is the more accessible
to the greater number of Chicka-
saws by railroad than any other
Chickasaw city and concluding there
was likelihood of long continuance of
the tribal schools, there were some
friends of both Ada and the Chick-
asaws who thought that it would
conserve the better interests of the
Chickasaws to concentrate their tri-
bal schools in this city, the only
Chickasaw city with a state normal
school.

Therefore the citizens of Ada met
together and discussed the propo-
sition. A committee was appointed
to consult with the leading Chicka-
saws and government officials that
their disposition toward the Ada pro-
ject might be ascertained. It is said

that many of the leading Chickasaws
favor the removal of the schools to
Ada, but it now appears that at least
one prominent Chickasaw is opposed
to such change and there may be
many more. The news is glad to
publish the Chickasaw's views. Here-
under there is given the public the
view of Judge Humphrey Colbert,
advanced Chickasaw full blood.

From Bro. Colbert,
Editor Ada News.

I see in your paper issued June 2nd
1905, school proposition considered at
the 25,000 Club rooms an undertaking
to effect the removal of Collins Insti-
tute to Ada. Prof. Kennedy seems to
be the one of the main leaders for
this to be done. This Collins Insti-
tute is a Chickasaw Indian boarding
school supported by funds belonging
to the Chickasaw people, and Prof.
Kennedy had charge of this school
for the last two years, employed by
the government. He has been suc-
cessful in the management and in
employing good teachers, etc. Every-
body likes Mr. Kennedy well as a
school man. I was in hopes he would
be retained at Collins Institute for
the next term. I as a farmer and a
citizen of this new state of Oklaho-
ma and always for anything that will
benefit the people I consulted my-
self if there is any good reason why
Collins Institute should be moved to
Ada and after investigation and hear-
ing arguments pro and con it is in
my opinion that to move it would be
a great blunder and a sad mistake.
In the first place it is the property
of the Chickasaw people and estab-
lished and maintained by the Chick-
asaw funds and not by the state
of Oklahoma. In the second place the
school ground and buildings cost the
nation \$8000 and to add the 160 acres
of land that the Atoka agreement set
aside for Collins Institute would add
another \$4000. These two amounts
put together would make Collins In-
stitute cost the nation \$12,000; in the
third place this school is situated in
a good healthy location, two good
strong wells of water is provided, a
fine clear stream of water runs with-
in one-half miles of the school, plen-
ty of wood for fuel on the school
ground or grounds belonging to the
school about 50 acres of land in a
good state of cultivation belonging
to the school. Owing to the many ad-
vantages that Collins has for a
school it is useless to move this
school to Ada and move it is against
the wish of the patrons of the school
and in general the Chickasaw people.
The Indians will not send their chil-
dren to Ada to school and to move
the school to Ada will kill the In-
dian's schools from the fact many of
the Indians will bring suit against

the government of the United States
for their pro rata share of the in-
vested funds now in the hands of the
government and if this money is
drawn out there will be no more mon-
ey to carry on Indian schools, conse-
quently the Indian children will have
to mix up with the white children
in school and the trouble would be
in the end the white children will
overrule the Indian children and the
Indian children will quit school and
grow up in ignorance instead of pro-
gressing in education and civilization
they would retrograde the white
schools mixed would be a stumbling
block to the Indians. H. COLBERT.

WEALTH IN OKLAHOMA.

Professor Gould, the director of
the Geological Survey has never been
able to get up much enthusiasm over
the gold and silver prospects of Okla-
homa, but he sees great possibili-
ties in clay; just ordinary, every-day
clay. He says that if one-tenth the
million dollars that have been spent
in digging for gold in the Wichita and
Arkuckle mountains had been spent
in establishing clay products plants
that Oklahoma would have been mil-
lions of dollars better off today.

Did you ever think that there is
a constant stream of good Oklaho-
ma money going out of the state to
buy clay products? All of our tile,
pottery, terra cotta and fire proofing
comes from Kansas. Missouri or
some other state. Even three-fourths
of our brick comes from Kansas. Our
money goes to pay taxes swell bank
deposits and pay grocery bills in
these state and Oklahoma is just so
much poorer.

There might be some excuse for
this condition of affairs if Oklaho-
ma had no clay, but Oklahoma has
plenty of clay, and good clay at that.
Besides Oklahoma has all sorts of
fuel to manufacture the clay and a
constantly increasing market.

The chemist of the Geological Sur-
vey is now in Pittsburg, Pa., at the
government testing laboratories mak-
ing tests of Oklahoma clays. When
these tests are completed and the
salts distributed to the various com-
mercial clubs furnishing the clay, the
people of Oklahoma will know just
what their clay is good for. When
this is done it should be an easy mat-
ter to locate clay products plants in
the state and thus keep our money at
home.—Oklahoman.

TO EMPLOY UNION MEN.

In Construction of State Buildings
Cards Will Be Recognized So Far
as Possible.

Outarie., Okla., June 15.—Union
labor will be employed as far as
possible in the construction of state
buildings hereafter constructed in
Oklahoma, according to a rule adopt-
ed today by the state board of pub-
lic affairs. All of the contracts which
are let by the board will contain a
stipulation to that effect and no con-
tractor will get any of the state
work who is not willing to accept
such a stipulation.

The board has also adopted a rule
in regard to the purchase of supplies
to the effect that all purchases shall
be made within the state, where the
same prices can be obtained as from
outside firms. This rule does not suit
some of the state officers, however.
The state treasurer's office sent in
to the board a requisition for litho-
graphed checks, hitherto purchased
from a Topeka house. The board sent
the order to an Oklahoma City firm,
which made the same price on the
work, but receiving a letter of in-
dignant protest from State Treasurer
Menefee, directing the cancellation of
the order if the work was not done
by the same firm as before.

"We may not know what we want",
said the treasurer's letter, "but
we will not allow your board to dic-
tate what we have."

State Normal for the Deaf.

Sulphur, Ok., June 16.—Col. Roy
Hoffman and R. J. Allen of the state
purchasing board have been here for
two days, going over the needs of
the state school for the deaf. A bi-
ennial maintenance appropriation of
\$80,000 for the institution was made
by the legislature, and this fund is
to be expended by the purchasing
board. This is commencement week
at the school the annual term of
which closes June 24. The average
attendance for the year just closing
has been 176 pupils. It is stated on
good authority that in the employ-
ment of matrons, hall girls, etc., for
the coming year preference will be
given to persons of good hearing,
the reasons given for such prefer-
ence being that in cases of sickness
or emergency persons of good hear-
ing would be much more apt to dis-
cern the needs of the small chil-
dren.

WHACK, GOES BIG STICK.

Roosevelt Bubbles Over With Hon-
esty.

New York, N. Y., June 17.—A dis-
cussion of the political problems
confronting the country through the
development of power by larger cor-
porations is made by former Presi-
dent Roosevelt in this week's Out-
look.

"If business is hurt by the stern
exposure of crookedness as a result
of the efforts to punish crooked
men," writes the ex-president, "then
business must be hurt until it so
adjusts itself that it will be im-
possible to prosecute wrong doing
without stampeding the business com-
munity to the defense of the wrong
doers and angry assaults upon those
who have exposed them."

Beware of Ointments for Catarrh
that Contain Mercury.

as mercury will surely destroy the
sense of smell and completely de-
range the whole system when enter-
ing it through the mucous surfaces.
Such articles should never be used
except on prescriptions from repu-
table physicians, as the damage they
will do is ten fold to the good you
can possibly derive from them. Hall's

mercury, and is taken internally, act-
ing directly upon the blood and muc-

MEET THE GOVERNOR

Executive Committee of School Land Lessees, Consult With Haskell Regarding Appraisement of Last Year.

Guthrie, Okla., June 17.—The executive committee of the school land lessees' organization was here today in consultation with Governor Haskell and the members of the school land board in regard to the method to be adopted for correcting and revising the appraisement of last year. The board has granted an extension of leases for the present year on the basis of the old appraisement, but has taken no action in regard to correcting the new one.

The lessees still favor the plan of sending out refers to the various counties to correct whatever injustice may have been done by the appraisers. The plan which now meets with most favor is to have two of these referees for each county, one a democrat and one a republican, so as to get the matter out of the field of politics as far as possible.

In his speech before the lessees here at the time of their annual convention, Governor Haskell expressed a desire to give them a square deal on the matter of the appraisement and promised to see that justice was done them, so that it is expected that he will acquiesce in the plan which may be adopted by the lessees.

NEWSPAPER CHANGE LEGAL.

Attorney General Rules Publication's Status Not Affected by Change in Location.

Guthrie, Okla., June 18.—An opinion by Attorney General Webb today indicates that the New State Tribune Gov. Haskell's newspaper published at Muskogee, may be moved to Oklahoma City and not lose its legal publication standing, inasmuch as it is now circulated in both counties.

The opinion was given in answer to a letter from Gov. Haskell. When asked if the New State Tribune would be moved from Muskogee to Oklahoma City, the Governor entered a denial, saying that he sought the information for another, and merely used his own newspaper for that purpose.

MOTION TO QUASH MAY COME LATER

COUNSEL FOR HASKELL MAY DEFER ACTION UNTIL OCTOBER.

Gregg Will Plead Guilty So It Is Reported.

McAlester, Okla., June 18.—United States Attorney Gregg arrived here today from Muskogee, and interest in the Muskogee town lot cases was revived. He said he was ready to take the matter up at once to grant a speedy trial, or he would give reasonable time for the filing of any motions.

Judge C. B. Stuart, leading counsel for Governor Haskell, said that probably no motions would be filed in the case until August 15 or September 1, and as Judge Marshall will not return to this state by the first of September, the motions may not be argued until the October term at Ardmore.

Mr. Gregg and Judge Stuart held a conference tonight which may result in a change in this program.

In the federal court today William Boerns pleaded guilty to violating the postal laws. Sentence was deferred.

A jury found Alfred Whaley guilty of violating the revenue laws and recommended mercy. He was sentenced to thirty days in jail.

Alba Leetka, an Indian from Wewatunka, pleaded guilty to the larceny of a letter containing a money order and was sentenced to one year in the Leavenworth prison.

TREASURER ARRESTED.

District Judge Holds Court Script Is Payable on Order.

Nowata, Okla., June 18.—Following a clash between District Judge T. L. Brown and County Treasurer J. W. Foresythe yesterday over the payment of an order upon the treasurer, issued by the court, in payment of the salary of a stenographer, Judge Brown caused the arrest of Foresythe for contempt of court. Foresythe paid the order from his own funds, holding that to pay it out of the county funds would be in violation of the law.

Judge Brown declared there was a difference between the regular county warrants and that issued out of the district court as in this case.

BEAUTIFUL WEDDING.

Opera House Only Adequate to Accommodate Friends and Relatives.

The most beautiful wedding of the mid-summer season was celebrated in Ada Friday evening when Miss Jennie June was united in marriage to Mr. Tom Thumb.

Though the participants were the tiniest we have seen, probably there has never occurred a wedding in our city witnessed by such a vast concourse of interested people. The contracting parties were two of our most popular young people and the wedding so elaborate, with such a large number of attendants that the Air-dome was the only house adequate to accommodate the visitors.

Many friends and relatives of the bride and groom were escorted by the ushers to the platform which had been beautifully decorated for the occasion. It was heart rending to witness the grief of the poor old mother. Just before the bridal party entered, Madam Cresco sang, "I Love You Truly."

To the sweet strains of Mendelssohn, entered the beautiful little flower bearers, the ring bearers, the cushion bearer, ushers, groomsmen, bridesmaids and maid of honor, the handsome groom with his best man and the pretty bride on the arm of her father. Under the floral arch the ceremony was impressively performed by the preacher.

Immediately after congratulations and commiserations, a reception was tendered the party by the bride's mother and father, when delicious refreshments were served.

The old lion of the tribe of Judah has broken the stillness of years and his words should be heeded by the renegade democrats in congress. It has been several years since ex-senator Rogers Q. Mills of Texas, has said anything political, but now he remarks among other things that "I believe that men who believe, as we do would rather see the party die than to see it further prostitute to serve the uses of the base men who now seem to control it." Many others think about the same way. Has the time come when the people must arise in their might and smite the hydra headed monster of corporated combines with the sword. Shall it come to that? Will the masses not be aroused from their lethargy?—Enid Democrat.

OUR GUTHRIE CORRESPONDENT

A requisition by the governor of Kentucky was honored by Governor Haskell today. Ike Cash, indicted in the circuit court of Muhlenberg county Kentucky for the wilful murder of Earl Smith is charged in the requisition. It is said that Cash is now in Le Flore county, Oklahoma.

Guthrie, June 18.—Some more evidence that capital has not lost faith in Oklahoma on account of the democratic laws, was filed with the office of the secretary of state today. The charters were as follows:

Hoffman-Sneed Printing Co., Muskogee, capital \$5,000.

Mendon Telephone Co., Mendon, capital \$3,000.

The Big Five Oil and Gas Co., Tulsa, capital \$10,000.

Raleigh Mining and Investment Co., of Lawton, capital \$100,000.

Western Biscuit Co., of Wichita, Kansas, capital \$150,000.

The Oklahoma Bankers Trust Co., Oklahoma City, capital \$500,000.

This is the usual daily tale of prosperity in Oklahoma. Investments reaching from \$2,000 to \$500,000 hardly justifies the prediction made by the republican state platform that business under a democratic administration would become paralyzed.

The following paroles were filed with the Secretary of State today after having been issued by Governor Haskell. The paroles make the usual provision that the prisoners abstain from the use of liquor and report every thirty days to the Governor. Fred Masher, convicted in the District court of Blaine county in April 1905, of larceny; Bud Casteel, convicted in the district court of Noble county in April, 1908, for burglary; Lee Raymond, convicted in the district court of Rogers county in May, 1908, of burglary; Thomas Lindsay, convicted in the district court of Carter county in November, 1908, for forgery; Belle Phillips, convicted in the district court of Kiowa county, February 1907, for manslaughter.

F. B. Lilly of Guthrie and J. C. Burton of Stroud, were appointed by Governor Haskell as delegates to the National Pharmacy convention at Los Angeles, Calif., August 16th to 21st.

An erroneous impression prevails in some parts of the state as to the location of the state public health department. This is the largest de-

partment of the state government not located in Guthrie. Health Commissioner, Dr. J. C. Mahr, has his department located at Shawnee. It is there that all matters concerning public health of the state are transacted. The state laboratory work under the direction of the state commissioner of health is located at Norman, being a part of the State University. Recently a number of samples of food stuffs and drugs have been sent to both the laboratory and to Guthrie by mistake.

All correspondence pertaining to public health should be addressed to Dr. J. C. Mahr, State Commissioner of Health, Shawnee, Okla.

Yesterday the State Board of Affairs approved the first estimate on the normal school building now in the course of construction at Weatherford, Oklahoma. The State Board of Affairs and the Board of Normal regents appears to have gotten together on this proposition.

Rule No. 3, of the State Board of Public Affairs will receive the hearty commendation of all who are for the upbuilding of home industries. The rule is to the effect that no supplies will be purchased from outside of the state where the same can be purchased at home without loss to the state. It also provides that all labor shall be performed by Oklahoma laborers where possible. Yesterday the board let the contract for the printing of five hundred volumes each of the first nine volumes of the Oklahoma Supreme Court Reports.

The Muskogee Times-Democrat was the lowest and best bidder and took the job for \$4,389.50. An arrangement was made with the type-writer companies, excepting the Underwood Company, to furnish the state institutions with type-writers at list price less 10 and 10 off. This is a saving on each type-writer of nine dollars below any price yet granted to the state by the companies. The schools of the state have been enjoying a price of seventy dollars, and the new contract reduces the price to fifty dollars. This arrangement will save the state annually from fifteen hundred to two thousand dollars.

Builds Two Story Sanitary Ware House in Addition to Four Gigantic Buildings.

The Texas Department Store, that institution with a purpose, managed by J. B. Wall, a weird wizard of twentieth century commercial tactics, is erecting at the rear of its Main street establishment a two story, rat and dust proof ware house where an immense reserve stock will be carried and where weighing and heavy weight transactions will be in charge of a competent man selected for that purpose. The Texas Department Store is a revelation to natives of this community and is attracting attention from all quarters.

Were All There.

It was a sight that delighted the eye at the opera house last night, those sweet, precocious Ada children. There are none like them anywhere and the receipts, a part of which were in benefit to the good Baptist ladies missionary aid, were all that could have been expected, for the house was filled, filled almost with the fond relatives of the little actors on the stage, relatives who had paid many dollars for the little stage dresses required to afford the proper stage effect, filled with relatives in the main who had then paid substantial admission prices to see the little darling girls and sturdy "Tom Thumb" boys do their little stunts on the stage and to incidentally of course assist the worthy ladies, who were going to receive the receipts, that is, part of the receipts, for the most of the receipts, it is said, went to the man and woman engaged in the labor of love and money, who got it all up.

It Brings Results!

The most skeptical can be easily convinced of the merits of advertising if the following story is given credence:

Pittsburg, June 17.—(Last night) advertising solicitors on Pittsburg papers patrolled the streets on the back the other day when Jos. Sturm, whom lawyers were looking for all over the world, to give him a lesson, walked into Mayor Magee's office. I read about it in the papers said Sturm, showing a clipping.
Twenty years ago in Bavaria Sturm saved the life of an aunt of his. The aunt died a few weeks ago leaving \$50,000 in money, a great big farm and 1,000 sheep. She bequeathed it all to Sturm. Lawyers started hunting him. It was thought he had lived in Pittsburg at one time. The paid ad did the rest.

Have You a Bull Dog?

If a man has a \$50 bull dog he will look after it carefully and not let it run around at night over town. But if he has a boy it is different. He is turned loose at a tender age to roam at will and the people wonder where the great army of tramps, bums, loafers, deadbeats, gamblers and drunkards come from each decade. They are germinated from our homes and run broad on the streets. It may be that your boy is making a growth in that direction. At all events the boy ought to be given an equal showing with the bull pup.—Wapanucka Press

A MISCARRIAGE OF JUSTICE SAYS THE STONEWALL NEWS

As had been freely predicted for several days, the jury in the Mack Lee murder case Wednesday morning returned a verdict of not guilty. The prediction that such would be the verdict was based solely on the fact that Lee possessed money and that his money signified of justice that would save his neck from the gallows. That Mack Lee was guilty there can be no doubt, but as to whether or not it was money that prompted the jury in their verdict opinions differ. But one thing is sure and that is the verdict verified the opinion so often and so freely expressed: it is such justice and such miscarriages of justice that cause the criminal especially in the happens to possess a few dollars to have less fear and less regard for the law. It is such verdicts that cause the law abiding God fearing man to feel unsafe and insecure around his hearthstone in his shop or anywhere his business might call him. It is such verdicts as this that cause the law to be executed at the hands of a mob—often composed of the best men in a community. But there is no telling the power of money in the hands of unscrupulous court manipulators whose chief aim is to thwart the ends of justice.—Stonewall News

ENDLEAVORS END MEET.

Muskogee Gets the Next Meeting and Elects the President.

At Reno, Okla. June 17.—The annual convention of the State Christian Endeavor society was closed here tonight with an address at the El Reno theater by the Rev. Dr. Francis Clarke of Boston, founder of the endeavor society. Muskogee was chosen this afternoon as the place for the next meeting of the state convention and officers were elected as follows:
President the Rev. W. S. Simmons of Buford, vice president, W. F. Richards of Stillwater, recording secretary, A. W. Conley of Frederick, junior superintendent, Miss Fay Causey of End, press superintendent, A. N. Cooke of Ardmore, introduction superintendent, Mrs. Gertrude Motter of Cherokee.
About two hundred and fifty delegates attended the convention which was said to be the most successful in the history of the organization. The sessions have been fraught with intense interest in the work and the best talent in the organization has

been brought forward in the discussions. Evangelization received a large share of attention and the missionary feature was prominent throughout.

NO MONEY FOR SMOKED MEAT REBELLION

Guthrie, Okla. June 18.—The state of Oklahoma has no money to pay the cost of the Crazy Snake war of two months ago and unless the horse thief reward fund is available for such purposes the expenses of the famous Smoked Meat Indian War must go unpaid until the next legislature.

Adjutant General Canton estimates the cost of suppressing the Indian uprising at from \$5,000 to \$7,000. The state has appropriated only \$3,000 for calling out troops and this is not available until July 1. There will remain a deficiency of several thousand dollars. The governor atorney general and General Canton held a conference last Sunday afternoon and endeavored to find some other fund out of which the remaining cost could be paid. The governor has an allowance of \$3,000 for paying \$50 rewards for captured horse thieves which was made him by the last legislature and since the Indian war so called arose over the theft of a cow, it is hoped that the horse thief appropriation can be construed to cover the military expenses.

The items of expenditure cover three special trains for conveying troops to the scene of hostilities, pay of 200 militiamen for ten days service and thirty men for twenty five days service, pay of officers cost of supplies and other transportation expenses.

The official report of Colonel Hoffman, commander in chief of the forces which went to the Hickory grounds, where the Snakes snatched that not a shot was fired by militiamen in restoring peace.

The first crazy Snake uprising the spring of 1908 was suppressed at a cost of \$30. The only soldier that went to the front then was Adjutant General Canton, a former United States marshal of undoubted courage. He went to the Snake camp in full uniform, and alone. There he found 600 Indians armed and excited. He told them that if they didn't lay down their arms and disperse he would bring in a thousand men

and wipe them off the face of the earth. So impressed were the Indians at his courage in coming alone into their midst and by his firm threat to annihilate them unless they laid down their arms that they stacked their rifles in a pile before him and Crazy Snake bound himself under oath to cease his warlike work. Two days later not an Indian was to be found in the neighborhood. They had all gone home to their cotton patches and corn fields.

When young men start in business their thoughts are all prospective. They look forward to the time when they will attain success. They work hard. They put enthusiasm and long hours into their business. As years pass they attain success and cash in this world's goods. They indulge in high living. They have country places. They take things easy. They sit back in their chairs and imagine their business will go on forever because they are so well established.
The hard worker is entitled to slacken up a little as success comes to him. He commences to wane. He should see to it that he gets the right sort of young material in the institution to keep up the enthusiasm and hard work which he himself has had. In the very nature of things it is impossible for a man to keep up his youthful pace in his mature age for as we have frequently observed you can't go fast far.

One of the principal elements in Marshall Field's success was that he got enthusiastic hard workers around him. The moment he saw signs of laxity in any of these individuals he let them out and got new material. Laxity means loss of power, and with loss of power the machine does not do as good work. Laxity in business is a waste.

A LIST OF THE INVINCIBLES

The advertising in a local newspaper invariably reflects the business status of the town. June and July are supposed to be the dulllest months of the year. The week just ending is supposed to be the dulllest week of the dulllest month but on closing our books today we can't refrain from calling your attention to the display advertisers who are represented in this issue. We are proud of them and submit their names as an index to their advertisements which appear elsewhere. If this standard could be maintained a better daily paper would be the result.

JUDGE H. COLBERT FILES OBJECTION

CHICKASAW FULL BLOOD WOULD
NOT HAVE INDIAN SCHOOLS RE-
MOVED FROM PRESENT LO-
CATIONS.

Ada Would Like Schools, But Desires
Consent and Co-operation of Chick-
asaws as Well as Government.

The citizens of Ada have lately re-
viewed with interest the suggestion
that by proper action there might be
secured the location in Ada of the
Collins Institute, a Chickasaw Tribal
school for girls located about 15
miles south in this county and in
addition, in conjunction, one or two
other tribal schools located within
the Chickasaw nation.

Since Ada is the more accessible
to the greater number of Chicka-
saws by railroad than any other
Chickasaw city and concluding there
was likelihood of long continuance of
the tribal schools, there were some
friends of both Ada and the Chick-
asaws who thought that it would
conserve the better interests of the
Chickasaws to concentrate their tri-
bal schools in this city, the only
Chickasaw city with a state normal
school.

Therefore the citizens of Ada met
together and discussed the propo-
sition. A committee was appointed
to consult with the leading Chicka-
saws and government officials that
their disposition toward the Ada pro-
ject might be ascertained. It is said

that many of the leading Chickasaws
favor the removal of the schools to
Ada, but it now appears that at least
one prominent Chickasaw is opposed
to such change and there may be
many more. The news is glad to
publish the Chickasaw's views. Here-
under there is given the public the
view of Judge Humphrey Colbert,
advanced Chickasaw full blood.

From Hon. Colbert,
Editor Ada News

I see in your paper issued June 2nd
1909, school proposition considered at
the 25,000 Club rooms an undertaking
to effect the removal of Collins Insti-
tute to Ada. Prof. Kennedy seems to
be the one of the main leaders for
this to be done. This Collins Insti-
tute is a Chickasaw Indian boarding
school supported by funds belonging
to the Chickasaw people, and Prof.
Kennedy had charge of this school
for the last two years, employed by
the government. He has been suc-
cessful in the management and in
employing good teachers, etc. Every-
body likes Mr. Kennedy well as a
school man. I was in hopes he would
be retained at Collins Institute for
the next term. I as a farmer and a
citizen of this new state of Oklaho-
ma and always for anything that will
benefit the people I consulted my-
self if there is any good reason why
Collins Institute should be moved to
Ada and after investigation and hear-
ing arguments pro and con it is in
my opinion that to move it would be
a great blunder and a sad mistake.
In the first place it is the property
of the Chickasaw people and estab-
lished and maintained by the Chick-
asaw funds and not by the state
of Oklahoma, in the second place the
school ground and buildings cost the
nation \$8000 and to add the 160 acres
of land that the Atoka agreement set
aside for Collins Institute would add
another \$4000. These two amounts
put together would make Collins In-
stitute cost the nation \$12,000; in the
third place this school is situated in
a good healthy location, two good
strong wells of water is provided, a
fine clear stream of water runs with-
in one-half miles of the school, plen-
ty of wood for fuel on the school
ground or grounds belonging to the
school about 50 acres of land in a
good state of cultivation belonging
to the school. Owing to the many ad-
vantages that Collins has for a
school it is useless to move this
school to Ada and move it is against
the wish of the patrons of the school
and in general the Chickasaw people,
the Indians will not send their chil-
dren to Ada to school and to move
the school to Ada will kill the In-
dian's schools from the fact many of
the Indians will bring suit against

the government of the United States
for their pro rata share of the in-
vested funds now in the hands of the
government and if this money is
drawn out there will be no more money
to carry on Indian schools, conse-
quently the Indian children will have
to mix up with the white children
in school and the trouble would be
in the end the white children will
overrule the Indian children and the
Indian children will quit school and
grow up in ignorance instead of pro-
gressing in education and civilization
they would retrograde the white
schools mixed would be a stumbling
block to the Indians. H. COLBERT.

WEALTH IN OKLAHOMA.

Professor Gould, the director of
the Geological Survey has never been
able to get up much enthusiasm over
the gold and silver prospects of Okla-
homa, but he sees great possibili-
ties in clay; just ordinary, every-day
clay. He says that if one-tenth the
million dollars that have been spent
in digging for gold in the Wichita and
Arkadia mountains had been spent
in establishing clay products plants
that Oklahoma would have been mil-
lions of dollars better off today.

Did you ever think that there is
a constant stream of good Oklaho-
ma money going out of the state to
buy clay products? All of our tile,
pottery, terra cotta and fire proofing
comes from Kansas, Missouri or
some other state. Even three-fourths
of our brick comes from Kansas. Our
money goes to pay taxes swell bank
deposits and pay grocery bills in
these state and Oklahoma is just so
much poorer.

There might be some excuse for
this condition of affairs if Oklaho-
ma had no clay, but Oklahoma has
plenty of clay, and good clay at that.
Besides Oklahoma has all sorts of
fuel to manufacture the clay and a
constantly increasing market.

The chemist of the Geological Sur-
vey is now in Pittsburg, Pa. at the
government testing laboratories mak-
ing tests of Oklahoma clays. When
these tests are completed and the
results distributed to the various com-
mercial clubs furnishing the clay, the
people of Oklahoma will know just
what their clay is good for. When
this is done it should be an easy mat-
ter to locate clay products plants in
the state and thus keep our money at
home.—Oklahoman

TO EMPLOY UNION MEN.

In Construction of State Buildings
Cards Will Be Recognized So Far
as Possible.

Guthrie, Okla., June 18.—Union
labor will be employed as far as
possible in the construction of state
buildings hereafter constructed in
Oklahoma, according to a rule adopt-
ed today by the state board of pub-
lic affairs. All of the contractors which
are let by the board will contain a
stipulation to that effect and no con-
tractor will get any of the state
work who is not willing to accept
such a stipulation.

The board has also adopted a rule
in regard to the purchase of supplies
to the effect that all purchases shall
be made within the state, where the
same prices can be obtained as from
outside firms. This rule does not suit
some of the state officers, however.
The state treasurer's office sent in
to the board a requisition for litho-
graphed checks, hitherto purchased
from a Topeka house. The board sent
the order to an Oklahoma City firm,
which made the same price on the
work, but receiving a letter of in-
dignant protest from State Treasurer
Menefee, directing the cancellation of
the order if the work was not done
by the same firm as before.

"We may not know what we want",
said the treasurer's letter, "but
we will not allow your board to dic-
tate what we have."

State Normal for the Deaf.

Sulphur, Ok., June 16.—Col. Roy
Hoffman and R. J. Aiken of the state
purchasing board have been here for
two days, going over the needs of
the state school for the deaf. A bi-
ennial maintenance appropriation of
\$80,000 for the institution was made
by the legislature, and this fund is
to be expended by the purchasing
board. This is commencement week
at the school the annual term of
which closes June 24. The average
attendance for the year just closing
has been 176 pupils. It is stated on
good authority that in the employ-
ment of matrons, hall girls, etc., for
the coming year preference will be
given to persons of good hearing,
the reasons given for such prefer-
ence being that in cases of sickness
or emergency persons of good hear-
ing would be much more apt to dis-
cern the needs of the small chil-
dren.

WHACK, GOES BIG STICK.

Roosevelt Babbles Over With Hon-
esty.

New York, N. Y., June 17.—A dis-
cussion of the political problems
confronting the country through the
development of power by larger cor-
porations is made by former Presi-
dent Roosevelt in this week's Out-
look.

"If business is hurt by the stern
exposure of crookedness as a result
of the efforts to punish crooked
men," writes the ex-president, "then
business must be hurt until it so
adjusts itself that it will be im-
possible to prosecute wrong doing
without stampeding the business com-
munity to the defense of the wrong
doers and angry assaults upon those
who have exposed them."

Beware of Ointments for Catarrh that Contain Mercury.

as mercury will surely destroy the
sense of smell and completely de-
range the whole system when enter-
ing it through the mucous surfaces.
Such articles should never be used
except on prescriptions from reput-
able physicians, as the damage they
will do is ten fold to the good you
can possibly derive from them. Hall's
Catarrh Cure, manufactured by F. J.

MEET THE GOVERNOR

Executive Committee of School Land Lessees Consults With Haskell Regarding Appraisal of Last Year.

Guthrie, Okla., June 17.—The executive committee of the school land lessees' organization was here today in consultation with Governor Haskell and the members of the school land board in regard to the method to be adopted for correcting and revising the appraisal of last year. The board has granted an extension of leases for the present year on the basis of the old appraisal, but has taken no action in regard to correcting the new one.

The lessees still favor the plan of sending out refers to the various counties to correct whatever injustice may have been done by the appraisers. The plan which now meets with most favor is to have two of these referees for each county, one a democrat and one a republican, so as to get the matter out of the field of politics as far as possible.

In his speech before the lessees here at the time of their annual convention, Governor Haskell expressed a desire to give them a square deal on the matter of the appraisal and promised to see that justice was done them, so that it is expected that he will acquiesce in the plan which may be adopted by the lessees.

NEWSPAPER CHANGE LEGAL.

Attorney General Rules Publication's Status Not Affected by Change in Location.

Guthrie, Okla., June 18.—An opinion by Attorney General West today indicates that the New State Tribune Gov. Haskell's newspaper published at Muskogee, may be moved to Oklahoma City and not lose its legal publication standing, inasmuch as it is now circulated in both counties.

The opinion was given in answer to a letter from Gov. Haskell. When asked if the New State Tribune would be moved from Muskogee to Oklahoma City, the Governor entered a denial, saying that he sought the information for another, and merely used his own newspaper for that purpose.

MOTION TO QUASH MAY COME LATER

COUNSEL FOR HASKELL MAY DEFER ACTION UNTIL OCTOBER.

Gregg Will Plead Guilty So It Is Reported.

McAlester, Okla., June 18.—United States Attorney Gregg arrived here today from Muskogee, and interest in the Muskogee town lot cases was revived. He said he was ready to grant a speedy trial, or he would give reasonable time for the filing of any motions.

Judge C. B. Stuart, leading counsel for Governor Haskell, said that probably no motions would be filed in the case until August 15 or September 1, and as Judge Marshall will not return to this state by the first of September, the motions may not be argued until the October term at Ardmore.

Mr. Gregg and Judge Stuart held a conference tonight which may result in a change in this program.

In the federal court today William Bolerus pleaded guilty to violating the postal laws. Sentence was deferred.

A jury found Alfred Whaley guilty of violating the revenue laws and recommended mercy. He was sentenced to thirty days in jail.

Alba Leetka, an Indian from Wewatka, pleaded guilty to the larceny of a letter containing a money order and was sentenced to one year in the Leavenworth prison.

TREASURER ARRESTED.

District Judge Holds Court Script Is Payable on Order.

Nowata, Okla., June 18.—Following a clash between District Judge T. L. Brown and County Treasurer J. W. Forsythe yesterday over the payment of an order upon the treasurer, issued by the court, in payment of the salary of a stenographer, Judge Brown caused the arrest of Forsythe for contempt of court. Forsythe paid the order from his own funds, holding that to pay it out of the county funds would be in violation of the law.

Judge Brown declared there was a difference between the regular county warrants and that issued out of the district court as in this case.

BEAUTIFUL WEDDING.

Opera House Only Adequate to Accommodate Friends and Relatives.

The most beautiful wedding of the mid-summer season was celebrated in Ada Friday evening when Miss Jennie June was united in marriage to Mr. Tom Thumb.

Though the participants were the tiniest we have seen, probably there has never occurred a wedding in our city witnessed by such a vast concourse of interested people. The contracting parties were two of our most popular young people and the wedding so elaborate with such a large number of attendants that the Air-dome was the only house adequate to accommodate the visitors.

Many friends and relatives of the bride and groom were escorted by the ushers to the platform which had been beautifully decorated for the occasion. It was heart rending to witness the grief of the poor old mother. Just before the bridal party entered, Madam Cresco sang, "I Love You Truly."

To the sweet strains of Mendelssohn, entered the beautiful little flower bearers, the ring bearers, the cushion bearer, ushers, groomsmen, bridesmaids and maid of honor, the handsome groom with his best man and the pretty bride on the arm of her father. Under the floral arch the ceremony was impressively performed by the preacher.

Immediately after congratulations and commiserations, a reception was tendered the party by the bride's mother and father, when delicious refreshments were served.

The old lion of the tribe of Judah has broken the stillness of years and his words should be heeded by the renegade democrats in congress. It has been several years since ex-senator Rogers Q. Mills of Texas, has said anything political, but now he remarks among other things that "I believe that men who believe as we do would rather see the party die than to see it further prostitute to serve the uses of the base men who now seem to control it." Many others think about the same way. Has the time come when the people must arise in their might and smite the hydra headed monster of corporate combines with the sword. Shall it come to that? Will the masses not be aroused from their lethargy?—End Democrat.

OUR GUTHRIE CORRESPONDENT

A requisition by the governor of Kentucky was honored by Governor Haskell today. Ike Cash, indicted in the circuit court of Muhlenberg county Kentucky for the wilful murder of Earl Smith is charged in the requisition. It is said that Cash is now in Le Flore county, Oklahoma.

Guthrie, June 18.—Some more evidence that capital has not lost faith in Oklahoma on account of the democratic laws, was filed with the office of the secretary of state today. The charters were as follows:

Hoffman-Speed Printing Co., Muskogee, capital \$5,000.

Mendon Telephone Co., Mendon, capital \$3,000.

The Big Five Oil and Gas Co., Tulsa, capital \$10,000.

Raleigh Mining and Investment Co., of Lawton, capital \$100,000.

Western Biscuit Co., of Wichita, Kansas, capital \$50,000.

The Oklahoma Bankers Trust Co., Oklahoma City, capital \$500,000.

This is the usual daily tale of prosperity in Oklahoma. Investments reaching from \$3,000 to \$500,000 hardly justifies the prediction made by the republican state platform that business under a democratic administration would become paralyzed.

The following paroles were filed with the Secretary of State today after having been issued by Governor Haskell. The paroles make the usual provision that the prisoners abstain from the use of liquor and report every thirty days to the Governor. Fred Mushler, convicted in the District court of Blaine county in April 1908, of larceny; Bud Casteel, convicted in the district court of Noble county in April, 1908, for burglary; Lee Raymond, convicted in the district court of Rogers county in May, 1908, of burglary; Thomas Lindsay, convicted in the district court of Carter county in November, 1908, for forgery; Belle Phillips, convicted in the district court of Kiowa county, February 1907, for manslaughter.

F. B. Lilly of Guthrie and J. C. Burton of Stroud, were appointed by Governor Haskell as delegates to the National Pharmacy convention at Los Angeles, Cal., August 16th to 21st.

An erroneous impression prevails in some parts of the state as to the location of the state public health department. This is the largest de-

partment of the state government not located in Guthrie. Health Commissioner, Dr. J. C. Mahr, has his department located at Shawnee. It is there that all matters concerning public health of the state are transacted. The state laboratory work under the direction of the state commissioner of health is located at Norman, being a part of the State University. Recently a number of samples of food stuffs and drugs have been sent to both the laboratory and to Guthrie by mistake.

All correspondence pertaining to public health should be addressed to Dr. J. C. Mahr, State Commissioner of Health, Shawnee, Okla.

Yesterday the State Board of Affairs approved the first estimate on the normal school building now in the course of construction at Weatherford, Oklahoma. The State Board of Affairs and the Board of Normal regents appears to have gotten together on this proposition.

Title No. 8, of the State Board of Public Affairs will receive the hearty commendation of all who are for the upbuilding of home industries. The rule is to the effect that no supplies will be purchased from outside of the state where the same can be purchased at home without loss to the state. It also provides that all labor shall be performed by Oklahoma laborers where possible. Yesterday the board let the contract for the printing of five hundred volumes each of the first nine volumes of the Oklahoma Supreme Court Reports.

The Muskogee Times-Democrat was the lowest and best bidder and took the job for \$4,339.50. An arrangement was made with the type-writer companies, excepting the Underwood Company, to furnish the state institutions with type-writers at list price less 10 and 10 off. This is a saving on each type-writer of nine dollars below any price yet granted to the state by the companies. The schools of the state have been enjoying a price of seventy dollars, and the new contract reduces the price to fifty dollars. This arrangement will save the state annually from fifteen hundred to two thousand dollars.

DEPARTMENT STORE EXPANDS.

Builds Two Story Sanitary Ware House in Addition to Four Gigantic Buildings.

The Texas Department Store, that institution with a purpose, managed by J. B. Wall, a weird wizard of twentieth century commercial tactics, is erecting at the rear of its Main street establishment a two story, ram and dust proof ware house where an immense reserve stock will be carried and where weighing and heavy weight transactions will be in charge of a competent man selected for that purpose. The Texas Department Store is a revelation to natives of this community and is attracting attention from all quarters.

Been Out Raising Money to Buy Lot for New Industry.

Progressive citizens, Messrs. Lucas and Blanks were engaged a few hours each Friday and Saturday in securing subscriptions with which to buy the lot on which will be located the foundry and machine shop. The money will be raised and thus Ada will secure another attractive industry to the several others already in successful operation.

Ada couldn't get along without such men as Robert Blanks and Henry Lucas.

Land Slide at Brays.

The big slaughter sale of the bankrupt stock of Mart Walsh which started at an early hour this morning has attracted the attention of all passers by. The large force of clerks have been swamped since an early hour today and there seems to be no abatement in the throng. Prices are being butchered mercilessly and the people are taking advantage of the slaughter.

Were 'All There.

It was a sight that delighted the eye at the opera house last night, those sweet, precocious Ada children. There are none like them anywhere and the receipts, a part of which were in benefit to the good Baptist ladies missionary aid, were all that could have been expected, for the house was filled, filled almost with the fond relatives of the little actors on the stage, relatives who had paid many dollars for the little stage dresses required to afford the proper stage effect, filled with relatives in the main who had then paid substantial admission prices to see the little darling girls and sturdy "Tom Thumb" boys do their little stunts on the stage and to incidentally of course assist the worthy ladies, who were going to receive the receipts, that is, part of the receipts, for the most of the receipts, it is said, went to the man and woman engaged in the labor of love and money, who got it all up.
